# SUSTAINABILITY STRATEGY 2025 – 2030

BUILDING A BRIGHTER FUTURE

# SUSTAINABLE INNOVATION: Transition to a Circular Economy

## NET ZERO PLAN

- Annual calculation of scope 1, 2 and 3 emissions
- Achieve a 20% reduction in GHG emissions by 2030
- Deliver carbon net zero by 2050

## FOOD WASTE

- Follow the principles of the food waste hierarchy to reduce generation of food waste
- Use our commitment to the WRAP Food Waste Reduction Roadmap to minimise waste
- Target zero waste to landfill by 2030

## PACKAGING REDUCTION

- We aim to achieve a 20% reduction in packaging demand by 2030
- Partner with suppliers to boost recyclable packaging use

# FARM TO FORK: Building Resilient Supply Chains

## SUSTAINABLE INGREDIENTS

- Use double materiality risk assessment findings to review the impact of business operations and accelerate sustainable practices

## RESILIENT SUPPLY CHAINS

- Strengthen sourcing mechanisms to build resilience to climate and system shocks

## CUSTOMER SERVICE LEVELS

- Develop sustainable products and packaging formats whilst improving service levels to prevent supply chain waste

# KML AND EEBS COMMUNITY: Serving People and the Planet

## SUPPLIER ENGAGEMENT PROGRAMME

- Engage with key suppliers to reduce energy and water consumption, using our influence to support positive change
- Circulate a mandatory sustainability charter that outlines our baseline expectations for our suppliers

## COMMUNITY ENGAGEMENT PROGRAMME

- Invest in supply chain and community-based charities working to build local and equitable food systems

## SOCIAL AND ENVIRONMENTAL JUSTICE

- Promote a just and sustainable transition through industry-based collaboration
- Ensure that suppliers are compliant with our ethical and responsible sourcing policy
- Realise a positive workplace culture where ethical conduct and colleague wellbeing are central
